

Prysmian
Group

Tailored to perfection.

Complete cable solutions made to measure your X-rays.

Prysmian Group

Prysmian Group is world leader in the energy and telecom cables and systems industry. With nearly 140 years of experience, sales exceeding €11 billion (pro-forma as of 31.12.2017), about 30,000 employees in over 50 countries and 112 plants, the Group is strongly positioned in high-tech markets and offers the widest possible range of products, services, technologies and know-how.

Complete MRI cable solutions

State-of-the-art MRI scanners deserve equally exquisite, and complete, cable solutions. We always develop our solutions together with you to make sure the outcome meets all your specific needs. In addition we assemble our X-ray cables on your scanner to ensure they perform perfectly. Make business with us, and your X-Ray machines will get dressed for success.

Cutting Edge Technology

We have over 20 years of experience developing cable solutions for X-Ray machines. Today we can offer you ultra-modern cable solutions ranging from 50 kV to 250 kV. Our specialty are pre-assembled cables for MRI scanners, for angiography and computer tomography devices.

All included

When making business with us you can rest assured to get a complete solution. We offer you both the cables and the additional components needed: couplers, extensions and plugs resisting temperatures of up to 130°C. Everything manufactured with state-of-the-art quality.

Innovative and made to measure

To achieve the best end result possible we always work together with our clients, making sure the solutions we innovate are perfectly customised to any specific need.

- Voltage levels from 50 to 250 kV
- Highly flexible to fit the functionality of the scanners
- Both cables and fittings can be fully customised to your specific needs

X-Ray cables

All our X-Ray cables are extremely flexible and can handle very tight bending radii. If you have any specific wishes not mentioned below, please let us know and we'll put our highly competent technicians on developing a solution that'll fit your needs.

Fittings

When developing our solutions together with you, fittings and other fixtures are of course part of the equation. Every individual component can be adapted to perfectly match your needs.

Our specialty are pre-assembled cables for MRI scanners, for angiography and computer tomography devices.
